## ACCESS TO MEDICAL RECORDS ACT 1988

You need to sign a Rehabilitation Assessment Consent Form to undertake the rehabilitation assessment. If you have not done so already, you will be able to complete the form on the day of the assessment. You should have the consent countersigned by your GP unless a medical doctor has referred you, in which case your GP consent is not required.

Under the Access to Medical Records Act 1988 you have the right to see any medical report on you which is provided for employment or insurance purposes by a medical practitioner who is, or has been, responsible for your clinical care. The following guidance applies when a medical report has been requested by a third party from AlphaCare.

**OPTION A:** You may not wish to see or receive the report from Alphacare. You may, however, not refuse the report being sent to a medical practitioner.

**OPTION B:** You may wish to see the report before it is supplied.

If you have indicated that you wish to have access to the report, you will be sent a copy of the report and will be given 21 days to approve it before it is supplied to the applicant. An AlphaCare therapist will call you within 5 days of sending the report to you to obtain consent. If you can't be contacted within 21 days of sending out the report, AlphaCare will assume that consent has been given.

If there is anything in the report, which you consider incorrect or misleading, you can request (but this request must be in writing) that the report is amended, but AlphaCare is not obliged to do so. If your amendment is refused, you may:

- i. withdraw consent for the report to be issued (but not to a medical practitioner), or
- ii. ask AlphaCare to attach to the report a statement setting out your own views, or
- iii. agree to the report being issued unchanged

**NOTE:** AlphaCare is not obliged to show you any parts of the report which it believes might cause serious harm to your physical or mental health or that of others, or which would reveal information about a third party or the identity of a third party who has supplied information to AlphaCare about you, unless the third party also consents. In those circumstances AlphaCare will so inform you and your access to the report will be appropriately limited.

**OPTION C:** You may consent to the application for the report but indicate that you do not wish to see the report before it is supplied. Should you change their mind after the application is made, you should notify AlphaCare in writing and should consult with AlphaCare's therapist within the 21 days after such notification to have access to the report (if the report has not already been supplied before you have changed your mind).

**OPTION D:** Whether or not you decide to seek access to the report before it is supplied, you have the right to seek access to it from AlphaCare at any time up to 6 months after it was supplied.

Please note that where a copy of the medical report is supplied, AlphaCare may charge a reasonable fee to cover the costs of supplying it
